3. Definitions

a) **Safeguarding** and promoting the welfare of children means:

- Protecting children from maltreatment.
- Preventing impairment of children's health or development (including mental health).
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care.
- Taking action to enable all children to have the best outcomes.

Safeguarding is a term which is pre-emptive and involves steps taken to prevent children from harm.

b) **Child Protection** means:

- Activities undertaken to prevent children suffering or being likely to suffer significant harm.
- Activities undertaken to ensure that where there has been harm in the past, the school does everything it can to ensure that the harm is never repeated.

Child Protection is a part of Safeguarding, the latter being an umbrella term.

c) **Abuse is:**

A form of maltreatment of a child and may involve inflicting harm or failing to prevent harm. Appendix 1 explains the different types of abuse.

d) **Neglect is:**

A form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the impairment of the child's health or development. Appendix 1 defines neglect in more detail.

4. Vulnerability and Equality Statement

Some children are at greater risk of abuse. This increased risk can be caused by many factors including social exclusion, isolation, discrimination and prejudice. To ensure that all of our pupils receive equal protection, we give special consideration to children who:

- are vulnerable because of their race, ethnicity, religion, disability, sex, gender identity or sexuality
- are vulnerable to being bullied, or engaging in bullying
- are at risk of sexual exploitation, forced marriage, female genital mutilation, or being drawn into extremism
- live in chaotic or unsupportive home situations
- live transient lifestyles or live away from home or in temporary accommodation
- are affected by parental substance abuse, domestic violence or parental mental health needs
- do not have English as a first language
- are looked after children (CLA)
- are young carers
- are asylum seekers

The school will take positive action, where proportionate to deal with any disadvantages faced by students with protected characteristics

5. Children with special educational needs and disabilities

Children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group of children, which can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- being more prone to peer group isolation than other children;
- the potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

Our staff are trained to be aware of and identify these additional barriers to ensure this group of children are appropriately safeguarded.

6. Responsibilities
